surrounded by dazzling whitewashed houses, and perched high above the village is the Acropolis, with its Temple of Athena.

You may also visit the Byzantine church of Our Lady, built in the 13th century. Continuing up to the Acropolis, we can view the Castle of the Knights, the restored temple of the Lindian Athena, and look out on to St. Paul's Bay with its tiny chapel.

Afterwards you will be taken on a panoramic drive to Monte Smith.
